Junior Clinics: are broken into two-week sessions and are held on Mondays, Wednesdays, and Fridays. Both age groups A & B will focus on introducing tennis through basic tennis stroke development including rallying, serving, simple drills and tennis games, while further emphasizing motor skills and enhancing athleticism. Age group C is designed for high school level students thinking about competing or ready to compete in high school. The skills sets of this group will range from beginner to advanced with players divided based on ability.
